The commedian, Foote, takes his turn thus: Foote from his earthly stage, alas! is hurled: Death took him off, who took off all the world Westminister Abbey has some notable epitaphs. This, by Samuel Wesley, is on the monument to Butler, the author of Hudibras:

When Butler, needy wretch! was still alive, No generous patron would a dinner give ; See him, when starved to death and turned to dust, Presented with a monumental bust! The poet's fate is here in emblem shown: He asked for bread, and he received a stone. This couplet on a monument to John Gay, the poet, Thackeray's "Little French Abbe," is hardly suited to

a Christian Church: Life is a jest, and all things show it; I thought so once, and now I know it. And what a defiance there is in this on the monument of "that gallant soldier, Sir Thomas Vere:" When Vere sought death, armed with his sword and shield Death was afraid to meet him in the field: But when his weapons he had laid aside,

Death, like a coward, struck him, and he died. Sir Thomas Parkins, the great wrestler, caused a monument to be built for himself, on which was a sculpture in relief, depicting death in the act of overthrowing Sir Thomas. The epitaph, which is in Latin, reads

Here lies the chief, who once threw all Thrown by the conquering arm of Death, Who ne'er had given the knight a fall, But that he found him out of breath But boast not, Death! with empty pride, Thy strength; the day will come when he Arising, with fresh breath supplied, Shall vanquish time, and conquer thee.

Miss Long was a beautiful actress of the last century. Though long, yet short, Though short, yet Pretty Long. Bancroft, Archbishop of Canterbury, was a covetous

man, and this pasquinading epitaph was put on him: Here lies his Grace, in cold clay clad, Who died for want of what he had. The reverse of this is one on Mr. James Worsdale, a

has just been re-elected chief of the Cherokee nation. He was first elected in 1828, and has been the chief ever since, having been re-elected every four years. It is said that so great is his popularity it is deemed useless, by those opposed to him, to run any person against him. Although he is now over sixty years of age, he still clings to power with a wonderful tenacity, having exercised the office of chief over thirty years. Mr. Ross has een a public man among the Cherokees all his life, and was in power as a president of the Cherokee committee, as early as 1810. He is nearly white, being the descendant of Daniel Ross, a Scotchman, who married a daughter of McDonald, a Scotchman, who married a Cherokee woman.
